# Education Policy

The goal of Yıldız Technical University is to establish, and to put into practice, an education and training infrastructure that possesses the capabilities and competencies appropriate to the age, that is aligned with world standards, and that is innovative, competitive, questioning, solution-generating and multidisciplinary in outlook.

Within this framework, the education policy of our University is to establish, and to ensure the sustainability of, an education system that:

- Keeps educational programmes and tools continuously up to date;
- Takes national and international accreditation as its basis and ensures that this culture becomes widespread;
- Attaches importance to the participation of external stakeholders;
- Adopts a multidisciplinary and interdisciplinary outlook;
- Is research-oriented;
- Adopts new approaches to learning;
- Develops students' analytical skills and practical competence;
- Continuously develops their professional and social skills;
- Encourages lifelong learning.
