Management Policy

Yıldız Technical University — which holds a respected place in the scientific and academic field, which makes a difference through its innovative understanding of education, and which educates well-qualified individuals — is advancing successfully towards becoming an international technical university with a voice in the future of society, in line with its mission and vision and taking continuous improvement and excellence as its basis through the contributions it makes to science.

The aim is to employ all the functions of management, from planning and organisation through to financial and administrative governance, in order to generate solutions, and to provide the motivation required for the academic and administrative staff of our University to act with a participatory and transparent vision.

Within this framework, the management policy of our University is to attain the adopted goal through an approach that:

- Advances with determination towards the regional and global sustainable development goals of our country;
- Holds a spirit of innovation and the aim of serving society;
- Educates the young people who will shape our future through universal methods and approaches, graduating them as conscientious and well-equipped professionals;
- Embraces the views of internal and external stakeholders, takes their expectations into account in line with their needs, and is solution-oriented;
- Strengthens research directed towards priority areas;
- Provides an environment responsive to students' needs and areas of interest;
- Increases our distinctive contribution to scientific activity as an R&D University.
